हमारी प्रतिज्ञा... सुरक्षित बने दूध का हर कतरा

असीस®
सम्पूर्ण पशु आहार

दूध की क्वालिटी और सुरक्षितता निर्भर करते हैं दूध देनेवाले पशु के आहार पर।
संदेहजनक पदार्थ बिना जांचे-परखे अगर फ़ीड में जाते हैं तो उनका विपरीत असर
दूध के प्याले में भी उतर आता है। अप्ला-टोक्सिन ऐसी ही एक समस्या है।
असीस फ़ीड के निर्माण में हमने अप्ला-टोक्सिन पर सख्त नियंत्रण रखा है।
तभी तो, असीस फ़ीड से पोषित गाय का दूध आप पूरे भरोसे से अपने घर ला सकते हैं।

“If love is supposed to be beautiful, then why does it cause pain?”

Some answers are hard to find.

Others, like the one to the question above, find it hard to find you.

You could make it easy for them.

Go where there is no one but you.

You. The caressing sand. And the gently whispering surf.

Tarkarli beach is such a place.

Here your quiet mind is a beacon that brings home the truth.

“Why do bad things happen to good people?”

A confession. You won't find the answer in this bit of prose.

What you will get is a clue - Ellora.

34 caves carved by 2nd century monks.

Priests whose pursuit of enlightenment was matched only by their artistic abilities.

On the cool grey rock walls their spirituality manifests itself in

undulating sculptures that hold answers to many of life's nagging questions.

Maybe one of them is the one for you.

"Am I really forgiven when I make a confession?"

Some mysteries can be solved by yet another mystery.

The kind that awaits you in Ajanta caves.

As your eyes feed your soul with visions of spiritual grandeur you will begin to wonder.

How did 2nd century B.C. monks with bronze chisels

and iron faith make science bow its head?

How can cold and heartless rock nestle a religion based on acceptance?

As you ponder you might come to realize that

whether you will be forgiven depends on who does the forgiving.
